Below is a description of what each column of info in the Ratings spreadsheet means.

MOVIE INFO

Title: The movie's title.

YOR: The movie's year of release.

Country: The movie's country of origin (according to IMDB.com)

EVALUATION

Rating:
The number of stars I give the movie on a scale of 0-4 stars including half stars. A rating of "N/A" means that I aborted the movie because it wasn't my cup of tea; as such, I don't feel that I can fairly rate the movie.

Verdict:
My recommendation of whether to see the movie based on its quality:
- See It (applies to some 3 star movies and all 3.5 to 5 star movies)
- Skip It (applies to some 3 star movies and all 1 to 2.5 star movies).

Review:
If I have written a review of the movie, there will be a "Review" link in this column. Clicking on the "Review" link will open the movie review (reviews are in Microsoft Word format).
